

State of the Special Issues at November 2011

	JOURNAL	GUEST EDITORS	TRACKS AND SESSIONS CONCERNED
1	IFAC-Control Engineering Practice	C.E. Pereira	Tracks "Real Time and Networked Embedded Systems"
2	IFAC-Annual Review in Control	A. Dolgui, G. Morel	Keynotes Papers completed by State of the Art Papers
3	IFAC-Engineering Applications of Artificial Intelligence	P. Valckenaers	Track "Holonc and Multi-agent Technologies for Industrial Systems"
4	IFAC-Mechatronics	P. Kopacek, P. Lutz, A. Pashkhevich	Tracks "Robotics and Factory of the Future", "Advanced Manufacturing Systems" and "Reconfigurable Manufacturing Systems"
5	International Journal of Computer Integrated Manufacturing	A. Bernard, X. Boucher, G. Fadel, S. Vajna	Tracks "Integrated Design of Product and Manufacturing Process" and "Models for Competences and Knowledge Management" and Poster Session "Knowledge and Process Modelling"
6	European Journal of Operational Research	P. Siarry, E. Taillard	Tracks "Metaheuristics and Soft Computing in Manufacturing Applications" and "Transportation and Logistics"
7	Computers & Operations Research	G. Finke, V. Strusevich, F. Werner	Track "Scheduling For Modern Manufacturing" and Poster Session "Planning and Scheduling"
8	Computers in Industry	H. Panetto	Track "Network enterprise control" and "Integration and Information in Manufacturing"
9	International Journal of Production Economics	R. Askin, A. Dolgui, J.M Proth	Track "Design of production systems" and Poster Session "Design of Production systems"
10	Journal of Intelligent Manufacturing	C. O'Brien, A. Villa, P. Burlat	Track "Supply networks design and management"
11	Journal of Intelligent Manufacturing	N. Rezg, K. Adjallah	Track "Intelligent and Collaborative Maintenance in Manufacturing"
12	International Journal of Systems Science	Y. Frein, JC. Hennet	Track "Production Planning and Inventory control" and Track "Production and Logistics"
13	Journal of Mathematical Modelling and Algorithms	X. Delorme, A. Dolgui, A. Kolokolov	Session "Locational analysis"
14	International Journal of Information Technology	X. Boucher, L. Camarinha-Matos, H. Afsarmanesh	Track "Supply networks design and management" and Poster sessions " Decision Support Systems" , "Information Systems And Extended Enterprise"
15	International Journal of Simulation & Process Modelling	F. Grimaud, A. Dolgui	Track "Simulation in industrial engineering" and session "industrial case studies"
16	Production Planning and Control	S. Dauzère-Pérès, S. Sarin, C. Yugma	Track "Novel Models and Approaches for Semiconductor Manufacturing"
17	International Journal of Production Research	A. Dolgui	Cutting Edge of French Community of Production Research: Results of INCOM'06 Symposium

(in green, the special issues published; in blue, the special issues completed and in press, in brown published in regular issues)

14 special issues were published

2 additional special issues are completed (in Press)
