TOUR 1 : thursday 18 may 2006 (afternoon)

- Enjoy a city tour called « **Saint-Etienne, homeland of braids & ribbons** »: discover the textile industry, established in the XVIth century and its interplay with the development of the city of Saint-Etienne.
- Visit the **Art & Industry Museum**: with its bricked vaults hosting the largest bicycle collection in France, magnificent weaving looms and an awesome collection of braids & ribbons. The museum is quite broad and eclectic, as its name implies, with exhibitions on the manufacture of weapons as well, and covering the Renaissance to the golden age of Manufrance. (a famous catalogue company similar to Sears)

TOUR 2 : (Because of lack of participation we had to cancel this tour. For this visit please contact directly the tourist information center)

Visit the Modern Art Museum: arguably the best collection of Contemporary Art outside of Centre Pompidou in Paris. *Le Musée d'Art Moderne de Saint-Etienne* owns one of the **most extensive European collections** of Modern & Contemporary Art. With 4 000 m² of exhibition in which to admire the twentieth century work of the likes of Léger, Kandinsky, Picasso, Soulages, Warhol,... This museum also is becoming well known locally for its student courses in creativity and innovative restaurant.

Again there will be a City Tour with commentary on some of the main attractions & historical venues of Saint-Etienne.

TOUR 3 : (Because of lack of participation we had to cancel this tour. For this visit please contact directly the tourist information center)

Visit of the **medieval village of Saint-Victor sur Loire** overlooking the scenic River Loire Gorges. Located within a wilderness protected area (listed location), the village is a maze of picturesque alleys with ancient houses (ancient presbytery, an old manufacturing site for soft furnishings, a cross from the XVIIIth century). Come discover the secrets of its **Roman Church**.

Lunch in a typical restaurant of the region in the town of Saint-Victor sur Loire...
